DETAILED ACTION***Allowable Subject Matter***

Claims 1-10 and 20 are allowed.

Reasons For Allowance

The following is a statement of reasons for the indication of allowable subject matter: The prior art taken alone or in combination neither discloses nor makes obvious the instant process of claims as a whole. Specifically, the prior art of record, Nishioka et al. (U.S. Patent 5,994,733) discloses a method for forming a flash memory device in a semiconductor assembly, comprising the steps of (col. 11, line 40 to col. 12, line 22 and FIG. 2B): forming a series of floating gate devices (FIG. 2B: 7) having their source electrodes connected together by a conductive implant into a defined active area, each source electrode being self-aligned to a respective gate electrode; and forming a metal drain plug (FIG. 2B: 20a) for each floating gate device (FIG. 2B: 7) of the series of floating gate devices, the metal drain plug connecting between a drain electrode of each floating gate device and a digit line (FIG. 2B: 20b) and self-aligning the metal drain plug to respective drain electrode but fails to teach or suggest the Applicant's steps of forming a metal interconnect running a major length of the connected together source electrodes, the metal interconnect making a substantially continuous contact therebetween and spanning completely between neighboring gate electrodes as recited in the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
